Local Draft Board Records: WWI Inductions, 1918 -- Series No. 195 (One box)

Correspondence and telegrams between the Provost Marshall of Colorado and the Local Board for Jefferson County regarding allotments, calls for volunteers, induction lists, instructions and train schedules for movement of men to various military training camps during World War I. Induction lists include serviceman's name, order and serial numbers, home address, and name of camp entrained to during the war. These lists are not records of the men who registered in Jefferson County for the WWI draft, nor are they lists of every man from the county who served in WWI. They are only lists of the men that Jefferson County was responsible for sending to US military camps as part of Colorado's federally-mandated quota for men to provide for federal military service.

Thanks to Jefferson County Archivist Ronda Frazier for preparing this important list for the FhGS web page
